

CPE Reporter™

Your CPE credit tracking needs **solved** once and for all.

Features, price, performance, support, 60-day FREE trial...it's all here! The affordable, easy-to-use CPE credit tracking solution.

Tracking CPE credits is a labor-intensive task.

Having branch offices in other states can compound the problem even more. And if employees are licensed in more than one state, the task becomes truly overwhelming.

The Solution: CPE Reporter™

CPE Reporter is an easy-to-use solution for tracking CPE credits. Whether your firm has only a single office or is a large international firm with branch offices around the globe, CPE Reporter can solve your credit tracking needs once and for all.

- Track credit and seminar information for an entire firm.
- Track credits for employees in different states.
- Indicate teaching credits.
- Track seminar attendance and sponsor information.
- Track seminar fees and expenses.
- Archive old CPE credit information.
- Create customized reports.
- Complete statistics to measure your firm's professional development efforts.
- Complete program documentation and on-screen help.
- User-friendly menu system.
- Credit limit checking for compliance.
